## 2014 Environmental Policy Statement

### Our Policy

The team at Rally Australia recognises that the event in Australia’s unique environment using some places that have important social, cultural and environmental values.

We are committed to ensuring that Rally Australia is conducted in an environmentally responsible manner that reflects our commitment to principles of sustainability.

A particular focus of our commitment is to:

- Use environmental impact assessment inform key decisions about the conduct of the event;
- Take steps to manage any risks to plants and animals that are identified;
- Understand and manage our fuel consumption and reduce or offset CO<sub>2</sub> emissions; and
- Manage our waste to provide for maximum opportunities for recycling.

Our environmental management system will be applied to all areas of rally operations that are within the direct control of Rally Australia.

Consistent with our responsibility to organise and promote Rally Australia while implementing our commitment to consider environmental effects we will:

1. Ensure the senior event managers accept responsibility for environmental issues arising from the conduct of the event and ensuring compliance with this policy
2. Conduct all activities in accordance with the relevant legislative requirements relating to environment protection and management
3. Be open and transparent about our environmental performance and our activities
4. Promote the efficient use of resources
5. Promote the minimisation of waste and the potential for all forms of pollution
6. Help to protect biodiversity from adverse impacts arising from our activities
7. Respect cultural and heritage assets
8. Encourage remediation where environmental impacts have arisen as a result of the event
9. Ensure that all our competitors, spectators, officials and employees understand their responsibilities to minimise potential risks to the environment
10. Continually monitor and strive to improve our environmental management performance
